HOW MINES WON
THE SOLAR DECAThLON

Prof. Tim Ohno, faculty advisor
Lucy Davis, Mines Solar Decathlon Club

Thurs, Nov 21, 7pm Brown Bldg, W250

Mines bested 17 other teams from around the world to claim the top spot in the first Solar Decathlon ever held in Africa. See how they cracked that difficult nut: to design and build on site an affordable, solar-powered net-zero-energy model house uniquely adapted to the North African climate and location.

Co-sponsored by the Mines Solar Decathlon Club and the Colorado Renewable Energy Society

FREE! Stay for refreshments and networking after the presentation!
